EFFECTIVE: December 1, 2006

### A13. MISCELLANEOUS SERVICE ARRANGEMENTS

Optional telephone features are non-basic telecommunication services and exempt from action or review by the Kentucky Public Service Commission as set forth in KRS 278.541 and KRS 278.544. This page is filed with the Commission pursuant to KRS 278.544(2).

(N)

#### A13.19 TouchStar Service

(T)

##### A13.19.1 Applications

- A. TouchStar service is a group of central office call management features offered in addition to basic telephone service.

(T)

##### A13.19.2 Definitions Of Feature Offerings

###### A. Call Return

This feature enables a customer to place a call to the telephone number associated with the most recent call received whether or not the call was answered or the number is known. The customer can dial a code to request that the network place the call.

Where facilities permit, upon activation of the feature, the customer will receive a voice announcement stating that Call Return has been accessed. In addition, the announcement will provide the Directory Number (DN) of the last incoming call. In some locations, the date and time of receipt of the call will also be provided. The Call Return user will then be prompted to enter an additional digit to continue with the feature activation, or to hang up to abort the activation.

If the called line is not busy, the call is placed. If the called line is busy, a confirmation announcement is heard, the customer hangs up and a queuing process begins. For the next 30 minutes both the calling and called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone the call will automatically be placed.

This feature is not available on operator handled calls. In connection with Call Return, the Company will deliver all numbers, subject to technical limitations, including telephone numbers associated with Non-Published Listing Service.

If the last incoming call originated from a telephone where delivery of the number was suppressed, either via per call or per line blocking, that number will not be available for voicing-back and the call cannot be returned by the Call Return customer. The Call Return user will receive a voice announcement stating that this service cannot be used to call the number.

If the incoming call is from a caller served by a PBX, only the main number of the PBX is transmitted and available for voice-back.

If the incoming call is from a RingMaster service customer, the telephone number transmitted and available for voice-back will be the main Directory Number rather than any dependent RingMaster service number.

(T)

If the incoming call originates from a multi-line hunt group, the telephone number transmitted and voiced-back will always be the main number of the hunt group, unless facilities permitting, the telephone numbers are TN identified within the group.

This feature is available, facilities permitting, to residence and business customers as follows: (a) monthly subscription, or (b) per activation/occasion. If the customer subscribes to the feature on a monthly basis, unlimited access is provided with no additional charge for each activation. Where facilities permit, the feature may be utilized on a non-subscription basis with a per occasion charge for each activation. Access to the usage option can be restricted at the customer's request at no charge.

###### B. Repeat Dialing

Repeat Dialing, when activated, automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed.

If the called line is busy, a confirmation announcement is heard, the customer hangs up and a queuing process begins. For the next 30 minutes both the calling and the called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone the call will automatically be placed.

This feature is available, facilities permitting, to residence and business customers as follows: (a) monthly subscription, or (b) per activation/occasion. If the customer subscribes to the feature on a monthly basis, unlimited access is provided with no additional charge for each activation. Where facilities permit, the feature may be utilized on a non-subscription basis with a per occasion charge for each activation. Access to the usage option can be restricted at the customer's request at no charge.

## GENERAL SUBSCRIBER SERVICES TARIFF

PSC KY. TARIFF 2A

Second Revised Page 14.1.1

Cancels First Revised Page 14.1.1

EFFECTIVE: November 1, 2007

KENTUCKY

ISSUED: October 17, 2007

BY: Joan A. Coleman, President - KY

Louisville, Kentucky

**A13. MISCELLANEOUS SERVICE ARRANGEMENTS**

Optional telephone features are non-basic telecommunication services and exempt from action or review by the Kentucky Public Service Commission as set forth in KRS 278.541 and KRS 278.544. This page is filed with the Commission pursuant to KRS 278.544(2).

**A13.19 TouchStar Service (Cont'd)****A13.19.2 Definitions Of Feature Offerings (Cont'd)****C. *Personalized Ring 6 a.k.a.* Call Selector**

(T)

*Personalized Ring 6* provides a distinctive ringing pattern to the subscribing customer for up to six specific telephone numbers. (T)

The customer creates a screening list of up to six telephone numbers through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers, the customer is alerted with a distinctive ringing pattern (short, long, short). Calls from telephone numbers not included on the screening list will produce a normal ring.

If the customer subscribes to Call Waiting (see Section A13 of this Tariff) and a call is received from a telephone number on the *Personalized Ring 6* screening list while the line is in use, the Call Waiting tone will also be distinctive. (T)

When a telephone number on the *Personalized Ring 6* screening list also appears on the *Selective* Call Forwarding list, the *Selective* Call Forwarding will take precedence. Likewise, when the same number is shown on the Call Block list, the call will be blocked. (T)

A customer's line will not produce a distinctive alert if the calling line is not referenced to and originated by the main telephone number or a telephone number identified number that represents all the lines in a collection of lines, such as multiline hunt groups.

**D. *Selective Call Forwarding a.k.a.* Preferred Call Forwarding**

(T)

*Selective* Call Forwarding allows the customer to transfer selected calls to another telephone number. A screening list of up to six numbers is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded to the Call Forwarding telephone number only if the calling number can be obtained and is found to match a number on the screening list. (T)

## GENERAL SUBSCRIBER SERVICES TARIFF

PSC KY, TARIFF 2A  
Fifth Revised Page 14.2  
Cancels Fourth Revised Page 14.2  
EFFECTIVE: November 1, 2007

**A13. MISCELLANEOUS SERVICE ARRANGEMENTS**

Optional telephone features are non-basic telecommunication services and exempt from action or review by the Kentucky Public Service Commission as set forth in KRS 278.541 and KRS 278.544. This page is filed with the Commission pursuant to KRS 278.544(2).

**A13.19 TouchStar Service (Cont'd)****A13.19.2 Definitions Of Feature Offerings (Cont'd)****D. *Selective Call Forwarding a.k.a. Preferred Call Forwarding* (Cont'd)** (T)

If the customer also subscribes to Call Block and the same telephone number is entered on both screening lists, the Call Block feature must be deactivated to allow the call to forward.

This feature will not work if the calling line is not referenced to and originated by the main telephone number, or a Telephone Number identified number that represents all the lines in a collection of lines such as multiline hunt groups.

**E. Call Block**

This feature provides the customer the ability to prevent incoming calls from up to six different telephone numbers.

A screening list is created by the customer either by adding the last number associated with the line (incoming or outgoing), or by pre-selecting the telephone numbers to be blocked. When a call is placed to the customer's number from a number on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive calls at this time.

If the customer also subscribes to *Selective Call Forwarding* and/or *Personalized Ring 6* and the same telephone numbers appear on those screening lists, Call Block will take precedence. (T)

This feature will not work if the incoming call is from a telephone number in a multiline hunt group unless the telephone number is the main telephone number in the hunt group, or is Telephone Number identified. Additionally, this feature will not block calls from coin or cellular telephones or operator assisted calls.

**F. Call Tracing**

Call Tracing enables the customer to initiate an automatic trace of the last call received.

Upon activation by the customer, the network automatically sends a message to the Company's Security Department indicating the calling number, the time the trace was activated, and in some locations, the time the offending call was received. The customer using this feature would be required to contact the Annoyance Call Bureau for further action.

Only calls from within TouchStar service equipped offices are traceable using Call Tracing.

This feature will not work if the incoming call is from a telephone number in a multiline hunt group, unless the telephone number is the main telephone number in the hunt group, or is Telephone Number identified.

In some locations, if the customer makes or receives another call after hanging up from the annoying call, prior to activating the trace, Call Tracing will not record the correct number.

**G. Caller ID - Basic (Number Delivery)**

This feature enables the customer to view on a display unit the Directory Number (DN) on incoming telephone calls.

When Caller ID - Basic is activated on a customer's line, the Directory Numbers of incoming calls are displayed on the called CPE during the first long silent interval of the ringing cycle.

Any customer subscribing to Caller ID - Basic will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

## GENERAL SUBSCRIBER SERVICES TARIFF

PSC KY. TARIFF 2A  
Ninth Revised Page 14.3  
Cancels Eighth Revised Page 14.3  
EFFECTIVE: November 1, 2007

**A13. MISCELLANEOUS SERVICE ARRANGEMENTS**

Optional telephone features are non-basic telecommunication services and exempt from action or review by the Kentucky Public Service Commission as set forth in KRS 278.541 and KRS 278.544. This page is filed with the Commission pursuant to KRS 278.544(2).

**A13.19 TouchStar Service (Cont'd)****A13.19.2 Definitions Of Feature Offerings (Cont'd)****G. Caller ID - Basic (Cont'd)**

If the incoming call is from a caller who subscribes to RingMaster service, the telephone number transmitted will always be the main number rather than any dependent RingMaster service number.

If the incoming call is from a caller served by a PBX, generally only the main number of the PBX is transmitted and available for display. However, in certain circumstances where facilities permit, the information associated with the actual station number originating the call may be transmitted and available for display.

If the incoming call originates from a Multi-Line Hunt Group, the telephone number transmitted will always be the main number of the hunt group unless the calling number is Telephone Number (TN) identified within the group.

Calling number information via Caller ID - Basic is not available on operator handled calls.

**H. Caller ID a.k.a. Caller ID Deluxe (Name and Number Delivery)**

(T)

This feature enables the customer to view on a display unit the calling party Directory Name and Directory Number on incoming telephone calls.

A maximum of 15 characters is allowed for transmission of the calling party Directory Name.

When Caller ID is activated on a customer's line, the calling party Directory Name and Directory Number on incoming calls will be displayed on the called CPE during the first long silent interval of the ringing cycle. The date and time of the call is also transmitted to the Caller ID customer.

(T)

Caller ID also includes Anonymous Call **Blocking** where facilities are available. This feature allows customers to automatically reject incoming calls when the call originates from a telephone number which has invoked a blocking feature that prevents the delivery of their number to the called party. When **Anonymous Call Blocking** is activated on the customer's line and an incoming call marked private is received, the called party's telephone will not ring. The call will be routed to an announcement and subsequently terminated. The announcement informs the calling party that the person he or she is trying to reach will not accept the call as long as the calling number is not delivered. Incoming calls are checked for acceptance or rejection by Anonymous Call **Blocking** regardless of the current state of the **Anonymous Call Blocking** customer's line (e.g., off hook or idle).

(T)

Subsequent to establishment of Caller ID **Anonymous Call Blocking** can be activated and deactivated at the customer's discretion through the use of preassigned feature access codes.

(T)

Any customer subscribing to Caller ID will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

(T)

Calling party name and/or telephone number information via Caller ID is not available on operator handled calls.

(T)

If the incoming call originates from a Multi-Line Hunt Group, the telephone number and name information transmitted will be associated with the main number in the hunt group, unless, facilities permitting, the lines within the group are TN (Telephone Number) identified.

If the incoming call is from a caller served by a PBX, generally only the main listed name of the PBX will be transmitted and available for display. However, in certain circumstances where facilities permit, the information associated with the actual station number originating the call may be transmitted and available for display.

If the incoming call originates from a caller who subscribes to RingMaster service the telephone number and name transmitted will always be the main number, rather than the RingMaster service number.

If the incoming call originates from a customer provided pay telephone, the name information transmitted will always be "Pay Phone".

### A13. MISCELLANEOUS SERVICE ARRANGEMENTS

Optional telephone features are non-basic telecommunication services and exempt from action or review by the Kentucky Public Service Commission as set forth in KRS 278.541 and KRS 278.544. This page is filed with the Commission pursuant to KRS 278.544(2).

(N)

#### A13.19 TouchStar Service (Cont'd)

(T)

##### A13.19.2 Definitions Of Feature Offerings (Cont'd)

**I. Calling Number Delivery Blocking - Permanent**

This feature enables residential subscribers of Non-Published Listing Service or special agencies as described in A13.19.3.A.8 to prevent the transmission of their telephone numbers and/or names, on outgoing calls, to subscribers of TouchStar service terminating Calling Name or Number Delivery Services. Calling Name and Number Delivery Blocking is in operation on a continuous basis. The feature is applicable on all outgoing calls placed from the customer's line. If the preassigned access code for Calling Name and Number Delivery Unblocking - Per Call is dialed on a line provisioned with Calling Name and Number Delivery Blocking - Permanent, the Directory Number and/or Directory Name will be delivered.

(T)

**J. Calling Number Delivery Blocking - Per Call**

Calling Number Delivery Blocking - Per Call allows a customer to temporarily prevent the transmission of that customer's Directory Number and/or Directory Name and thus control their availability to the called party. The transmission of the Directory Number and/or Directory Name can be temporarily prevented on an as needed basis by dialing a preassigned access code prior to making a call. This action must be repeated each time a call is made to prevent the transmission of the Directory Number and/or Directory Name.

### A13. MISCELLANEOUS SERVICE ARRANGEMENTS

Optional telephone features are non-basic telecommunication services and exempt from action or review by the Kentucky Public Service Commission as set forth in KRS 278.541 and KRS 278.544. This page is filed with the Commission pursuant to KRS 278.544(2).

#### A13.19 TouchStar Service (Cont'd)

##### A13.19.2 Definitions Of Features Offerings (Cont'd)

(Obsoleted, See Section A113.)

##### L. Call Tracking - Bulk Calling Line Identification (BCLID)

This feature allows Multi-Line Hunt Groups (MLHG) or Private Branch Exchange (PBX) customers to receive call-related information on certain incoming telephone calls.

The following information is transmitted to the Call Tracking customer over a separate channel which is required for feature operation: calling and called directory numbers (DN), time of day the call was received, busy/idle status of the called line, and the calling line type (individual or group). This information should be received by the customer premises equipment (CPE) or by equipment in the central office shortly after reception of the incoming call.

Any customer subscribing to Call Tracking, who wishes to have the Call Tracking information delivered to their CPE, will be responsible for the provision of compatible CPE which will receive, translate, display and/or store the transmitted data. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

If the incoming call is from a caller served by a PBX, generally only the main number of the PBX is transmitted and available for display. However, in certain circumstances where facilities permit, the information associated with the actual station number originating the call may be transmitted and available for display.

If the incoming call originates from a Multi-Line Hunt Group, the telephone number transmitted and available for display will always be the main number of the hunt group.

If the incoming call is from a customer who subscribes to RingMaster service, the telephone number transmitted will always be the main number rather than the RingMaster service number.

Charges for Call Tracking are applicable on a per subscription and a "per calling number delivered" basis, plus appropriate Service Charges for establishment of the feature on the customer's line.

##### M. Anonymous Call Blocking a.k.a. Anonymous Call Rejection

This feature allows customers to automatically reject incoming calls when the call originates from a telephone number which has invoked a blocking feature that prevents the delivery of their number to the called party. When Anonymous Call **Blocking** is activated on the customer's line and an incoming call marked private is received, the called party's telephone will not ring. The call will be routed to an announcement and subsequently terminated. The announcement informs the calling party that the person he or she is trying to reach will not accept the call as long as the calling number is not delivered. Incoming calls are checked for acceptance or rejection by Anonymous Call **Blocking** regardless of the current state of the **Anonymous Call Blocking** customer's line (e.g., off hook or idle).

A service order is required to establish or discontinue Anonymous Call **Blocking**. Subsequent to establishment, the feature can be activated and deactivated at the customer's discretion through the use of preassigned feature access codes.

##### N. Enhanced Caller ID (Busy Line and Idle Line Name and Number Delivery)

This feature enables the customer to view on a display unit the calling party Directory Name and Directory Number (DN) on incoming telephone calls both when the subscriber's line is in use and when it is not in use. The date and time of the call is also transmitted to the Enhanced Caller ID customer. A maximum of 15 characters is allowed for transmission of the calling party Directory Name.

When the Enhanced Caller ID customer's line is not in use the Directory Name and Directory Number of the line that originated the incoming call and the date and time of the call will be displayed on the called CPE during the first long silent interval of the ringing cycle.

When the Enhanced Caller ID customer's line is in use, the Directory Name and Directory Number of the line that originated the incoming call and the date and time of the call will be displayed on the called CPE following the waiting call alerting tone. The called party has the following options for disposition of the incoming call:

- Answer the waiting call while placing the original call on hold,
- Alternate between the waiting call and the original call, and
- Ignore the waiting call.

### A13. MISCELLANEOUS SERVICE ARRANGEMENTS

Optional telephone features are non-basic telecommunication services and exempt from action or review by the Kentucky Public Service Commission as set forth in KRS 278.541 and KRS 278.544. This page is filed with the Commission pursuant to KRS 278.544(2).

(N)

#### A13.19 TouchStar Service (Cont'd)

(T)

##### A13.19.2 Definitions Of Features Offerings (Cont'd)

###### N. Enhanced Caller ID (Busy Line and Idle Line Name and Number Delivery) (Cont'd)

If the incoming call originates from a customer provided pay telephone, the name information transmitted will always be "Pay Phone."

If the incoming call is from a caller who subscribes to RingMaster service, the name and number transmitted will always be the main directory listing information rather than the RingMaster service listed name and number.

(T)

If the incoming call originates from a multi-line hunt group, the name and number transmitted will always be the main listed directory name and number of the hunt group, unless, facilities permitting, the lines are Telephone Number (TN) identified within the group.

If the incoming call is from a caller served by a PBX, generally only the main listed name and number of the PBX will be transmitted and available for display. However, in certain circumstances where facilities permit, the information associated with the actual station originating the call may be transmitted and available for display.

Any customer subscribing to Enhanced Caller ID will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

###### O. Enhanced Caller ID With Call Management

This feature is only available to business customers where facilities permit. This feature allows a customer to control the treatment applied to incoming calls while the customer is off-hook on a call. Enhanced Caller ID with Call Management includes the functionality of the Call Waiting feature and the Caller ID feature and provides several additional call disposition options.

The customer must subscribe to the Call Forwarding Don't Answer feature in order to forward a waiting call to another location. All terms and conditions, including rates, for this feature are as described in A13.9 of this Tariff. This feature must be ordered separate from Enhanced Caller ID with Call Management.

Call disposition options provided with Enhanced Caller ID with Call Management include:

- Answer the waiting call, placing the first party on hold
- Answer the waiting call, dropping the first party
- Direct the waiting caller to hold via a recording
- Forward the waiting call to another location (e.g., a voice mailbox or Telephone Answering Service)
- Conference the waiting call with the existing, stable call and, if desired, subsequently drop either leg of the "conferenced" call.

Utilization of the full capabilities of Enhanced Caller ID with Call Management requires the use of an Analog Display Services Interface (ADSI) - compatible telephone at the customer's premises. The installation, repair and the technical capability of the ADSI-compatible CPE to function in conjunction with the features specified herein is the responsibility of the customer. The Company assumes no liability, and will be held harmless, for any incompatibility between this equipment and the network features described herein.

###### P. BusyConnect

TouchStar service BusyConnect is an optional network feature which will be offered beginning March 3, 1998 in central offices where facilities permit on a usage basis. Presubscription will not be required and billing will be incurred on a per use basis.

BusyConnect enables callers to retry a busy line on demand. When a caller receives a busy condition, the service will automatically play an announcement offering the caller the option of having the service complete the call when the called line becomes available. If the caller activates BusyConnect service, the status of the called party's line will be monitored for thirty minutes and the call completed when the line is available.

BusyConnect service is available, facilities permitting, to residence and business customers on a per activation/occasion basis. The service may be utilized on a non-subscription basis with a per occasion charge for each activation, whether the call is completed or not. Access to the usage option can be restricted at the customer's request at no charge. (USOC BRD in A13.19.4)

**A13.19 TouchStar Service (Cont'd)****A13.19.3 Regulations And Limitations Of Service****A. The Following Limitations Apply:**

1. TouchStar service is provided subject to the availability of facilities. Additionally, the features described will only operate on calls originating and terminating within TouchStar service equipped offices. Also, feature screening lists can only contain telephone numbers of subscribers served out of TouchStar service equipped offices.
2. The TouchStar service basic features are available to single line and multi-line residence and business customers, unless otherwise specified following, who have rotary dial or Touch-Tone service, except that BusyConnect service will not work with rotary dial in most offices. Caller ID - Basic and Caller ID are available to single and multi-line residence and business customers. Enhanced Caller ID and Enhanced Caller ID with Call Management are available only to business customers with non-hunting lines or on the last line of a series completion arrangement. Enhanced Caller ID and Enhanced Caller ID with Call Management are not available for Centrex Type Services customers. Caller ID-Basic, Caller ID, Enhanced Caller ID and Enhanced Caller ID with Call Management are not available for Private Branch Exchange (PBX) customers. Call Tracking (BCLID) is not available for single line arrangements, but it is available for PBX and multi-line business customers. Neither Caller ID - Basic, Caller ID, Enhanced Caller ID, Enhanced Caller ID with Call Management nor Call Tracking (BCLID), can be provisioned for customers with the following service arrangements; Basic 911, FX, FCO, DPA or Dual Service. (T)
3. TouchStar service basic features cannot be provisioned on toll terminals, trunks or some remote switching locations.
4. Appropriate Service Charges apply except during Company selected periods of special promotion. Applicable service charges will be waived for the following situations: Upgrades from Caller ID-Basic to Caller ID, Enhanced Caller ID or Enhanced Caller ID with Call Management; upgrades from Caller ID to Enhanced Caller ID or Enhanced Caller ID with Call Management; or upgrade from Enhanced Caller ID to Enhanced Caller ID with Call Management. (T)
5. The Company will deliver all numbers/names, subject to technical limitations, including telephone numbers/names associated with Non-published Listing Service as described in Section A6, unless the caller subscribes to and/or has activated Calling Number Delivery Blocking. (T)

**A13.19 TouchStar Service (Cont'd)**

(T)

**A13.19.3 Regulations And Limitations Of Service (Cont'd)****A. The Following Limitations Apply (Cont'd)**

8. Optional Calling Number Delivery Blocking - Permanent is available upon request, at no charge to residential subscribers of Non-Published Listing Service as described in A6. of this Tariff and, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted. This includes lines at the residences of employees/volunteers where the head of the agency certifies to local Company management a need for blocking based upon health and safety concerns: (a) established shelters of domestic intervention and agencies which deal with domestic violence, (b) federal, state and local law enforcement agencies.
9. Calling party information via Caller ID - Basic, Caller ID - Deluxe, Enhanced Caller ID, Enhanced Caller ID with Call Management, or Call Tracking is not available on operator handled calls.
10. The Company's liability arising out of the provision of any TouchStar service feature, including but not limited to the delivery or non-delivery of calling numbers/names, is limited as set forth in A2.5 of this Tariff (T)
11. TouchStar service features are not available on trunks except as specifically noted in A13.19.3.A.2 and 15 following. (T)
12. Telephone numbers/names transmitted via Caller ID Basic, Caller ID - Deluxe, Enhanced Caller ID, Enhanced Caller ID with Call Management, or Call Tracking are intended solely for the use of these subscribers. Resale of this information is prohibited by this Tariff, except the caller's numbers may be provided to the subscriber's client for those calls sponsored or provided by that specific client where the client's identity is disclosed to the caller and the client agrees not to distribute such information to others.
13. TouchStar service can be suspended as specified in A2.3.16 of this Tariff. During the period of suspension, no recurring charge applies. (T)
14. Per Activation Call Return, Repeat Dialing, Denial of Per Activation Call Return and Denial of Per Activation Repeat Dialing are available to the following types of service where facilities permit: single line residence, single line business, multi-line residence, multi-line business and PBX trunks.
